

ABSTRACT OF THE DISCLOSURE

202120-0012001
Data transmitted from a data transmission server
1 to a certain user arrives at a network gateway 2 via
an internet 100, and is received in an arrived data
5 receiving means 31 of an arrived data dealing function
part 3 provided in the inside. Then, a data arrival
information determining means 32 determines the data
arrival information type on the basis of the type of
terminal of the pertinent user as stored in an individual
10 user terminal type memory 33, a data arrival information
editing means 34 edits data arrival information on the
basis of the data received by the received data and data
arrival information type, and a data arrival information
transmitting means 35 transmits data arrival information
15 to the terminal used by the user. The transmitted data
arrival information arrives at a user terminal 4 via a
radio network 200.
